

Finger FG25-7

Grapple 10-18 tonnes

Heavy duty universal grapple

The Steelwrist finger grapple is a heavy duty universal grapple for stumps, debris, scrap and shrubbery. It comes in a seven finger and a five finger version, to fulfill wishes from the operators. Similarly to all other Steelwrist grapples it has a high clamping force, load holding valves and accumulator for the highest safety level.

With a wide opening it's the perfect work tool for operators who want to broaden their scope of work. The by-passing jaws close fully so that also thin objects can be handled with ease.

Hardox 500 in all wear plates as well as jaws with hard facing 600 Hb welding for longer lifetime. Obviously it also has expander plates and self lubricating bearings.

The bracket has a 5° angle that levels the grapple with the tiltrotator rotation plane. Naturally it works great with our SQ-technology.

🔧 Technical specification

Article	10-18
Machine weight (tonnes)	0,25
Gripper area, m2	1707
Gripper reach (mm)	6000
Compaction area (kg)	350
Weight (kg)	15
Gripper force, tip against tip, kN	848
Height, tip against tip	610
Height, max open	250
Max operating pressure (bar)	S45, S50, S60, SQ60-4, SQ60-5, HHS08, HS10, CW10, CW30/40
Bracket	S40, S45, S50, S60, SQ60-4, SQ60-5, CW05, CW10, HS03, HS08
