

Finger FG32-5

Grapple 8-18 tonnes

Heavy duty universal grapple

The Steelwrist finger grapple is a heavy duty universal grapple for stumps, debris, scrap and shrubbery. It comes in a seven finger and a five finger version, to fulfill wishes from the operators. Similarly to all other Steelwrist grapples it has a high clamping force, load holding valves and accumulator for the highest safety level.

With a wide opening it's the perfect work tool for operators who want to broaden their scope of work. The by-passing jaws close fully so that also thin objects can be handled with ease.

Hardox 500 in all wear plates as well as jaws with hard facing 600 Hb welding for longer lifetime. Obviously it also has expander plates and self lubricating bearings.

The bracket has a 5° angle that levels the grapple with the tiltrotator rotation plane. Naturally it works great with our SQ-technology.

🔧 Technical specification

Machine weight (tonnes)	8-18
Gripper area, m2	0,32
Gripper reach (mm)	1823
Compaction area (kg)	7000
Weight (kg)	630
Gripper force, tip against tip, kN	20
Height, tip against tip	1033
Height, max open	863
Max operating pressure (bar)	250
Bracket	S50, S60, S70, SQ60-4, SQ60-5, SQ65, SQ70, SQ70/55, CW40, HS21
