

HC90

Compactor 16-30 tonnes

Steelwrist Powered Work Tools – Compactor

Compaction made easy

Steelwrist Compactors are designed for quiet, safe, comfortable and maintenance free compaction of soil, pipeline trenches, embankments, pits and shafts. The low height and off-center bracket position increase the reach and you can use the compactor under obstacles and in other narrow positions.

The open design allows the compactor plate to self-clean and prevent backfill material to jam the compactor. The angled housing design and rubber buffers provides optimum force distribution for the compaction work and makes it possible to use in rough terrain. The 15° angle also reduce stress on the rubber buffers resulting in less wear. Additionally the job site safety level is improved as the need for personnel directly in the work area is reduced.

Technical specification

Article	605028
Machine weight (tonnes)	16-30
Compaction Force, kN	90
Frequency , Hz	38
Weight (kg)	969
Length (mm)	1050
Width (mm)	800
Height (mm)	643
Load Area , m2	0,98
Hydraulic pressure, rec/ max	150/250
Flow requirement	120-140
Bracket	S60, SQ60-4, SQ60-5, SQ65, S70, SQ70, SQ70/55, HS10, HS21, CW30
